  - Is moving offices there
  - Recruited other tenants; and
  - Is bringing new vibrancy to a dark building in the heart of the downtown.

## **Helping provide still more light for dark spaces!**

- The IDA provided incentives to assist with the redevelopment of 83 Main St., one of the largest buildings in downtown Cortland with upper stories vacant for decades. This building is one of several included in the city's Downtown Revitalization Initiative, a \$10 million state award for which the BDC was a driving force.
- Retail is coming back to 55 Main St. 14 years after it was gutted by an arson fire. The BDC has been a leading partner in the drive to bring the building back on line in this important downtown location.

## **Old storefronts with a new use**

- The BDC, through its work with the Central New York Regional Economic Development Council, helped secure significant funding for McNeil & Company as it pursued a multimillion-dollar rehabilitation of chronically vacant spaces in the center of the downtown district. The project is helping grow jobs in the heart of the city.

## **Support for historic districts**

- The IDA provided assistance for the full-scale replacement of a Homer village building destroyed by fire in 2016. The Dwayne Block building now fills a gaping hole in the village's downtown streetscape and represents a private and public sector commitment to the past present, and future.

## **The Bottom Line**

- Tens of millions in capital investment and significant community and economic development projects were the direct result of the agencies' efforts in 2019. It's been a productive year. We will continue to fight for project development, job creation, job retention, and capital investment.
